

2.6.2. Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution.

Response:

Our Institute is affiliated to PAH University, Solapur. We offered Graduate, Post Graduate and Research programs and courses under the Faculty of Law, the institute followed the curriculum designed by our affiliated university. The Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution and the same are communicated to the students in the formal way of the discussion in the classroom and departmental notice board.

After measuring attainment of POs, PSOs and COs, it has been observed that the strength of the students as well as passing percentage of the students is increasing progressively. Besides, students' progression to the higher studies that is from Graduate to Post Graduate seems to be increasing consistently and rapidly in the last five years. We took utmost care of measuring the level of attainment of POs, PSOs and COs and followed formal as well as informal mechanism for the measurement of attainment of the outcomes. Even we took feedback from all the stakeholders in this respect and try to take necessary steps accordingly.

Subsequently, the College took care of the attainment to measure the POs, PSOs and COs and implemented the mechanism as follows:-

- The institute followed the Academic Calendar of our affiliated university.
- All the subject teachers maintained Teaching Plan in every academic year.
- All the subject teachers prepared Semester-Wise evaluation Reports.
- Internal examination committee analyzed evaluation reports of results.
- Institute considered Feedback from the Stakeholders for the attainment of PO, PSO and CO.
- Students are motivated to contribute in the development of Nation and community.

Attainments of CO's are calculated by using university examination results. Attainment levels are finalized at college level and conveyed to IQAC through Internal Examination Committee. The attainment level of each CO is computed by setting weights as follows:

Weight	Benchmark
1	Number of students securing below 35%
2	Number of students securing above 36 to 45 %
3	Number of students securing above 46 to 60 %
4	Number of students securing 61% and above %
